iUniverse, United States, 2014. Paperback. Book Condition: New. 229 x 185 mm. Language: English . Brand New Book ***** Print on Demand *****.This book won t waste your time. It explains the fundamentals leading to investment success while avoiding the all-too-common dumbed-down information that just tells readers what they already know. Sophisticated concepts like marked-to-market and the snapback phenomenon and Modern Portfolio Theory are some of the book s themes that can lead to confidence and success as investors. For retirees, the book s purpose is to provide a do-it-yourself course of action allowing for an end-run around the financial services industry with the latter s excessive costs --- costs that eat up what could otherwise have been more retirement income. Knowing how to effectively self-manage assets and implement a mix of cost-effective investments is a critical skill for retirees. Understanding and applying some simple basics will deliver the most on-going income while still combating the disasterous effects of inflation.
