

The Way of Science: Finding Truth and Meaning in a Scientific Worldview (Paperback)

Filesize: 4.91 MB

Reviews

Most of these ebook is the perfect publication offered. Sure, it really is play, still an interesting and amazing literature. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

THE WAY OF SCIENCE: FINDING TRUTH AND MEANING IN A SCIENTIFIC WORLDVIEW (PAPERBACK)

DOWNLOAD

Prometheus Books, United States, 2013. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book. How science can convey a profound sense of wonder, connectedness, and optimism about the human condition. This book makes a compelling case that now more than ever the public at large needs to appreciate the critical-thinking tools that science has to offer and be educated in basic science literacy. The author emphasizes that the methods and facts of science are accessible to everyone, and that, contrary to popular belief, understanding science does not require extraordinary intelligence. He also notes that scientific rationality and critical thinking are not only good for our physical well-being but also are fully in sync with our highest moral codes. He illustrates the many ways in which the scientific worldview offers a profound sense of wonder, connectedness, and optimism about the human condition, an inspiring perspective that satisfies age-old spiritual aspirations. At a time of daunting environmental challenges and rampant misinformation, this book provides a welcome corrective and reason to hope for the future.
