RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 58 pages. LC Number: KF27 . H577 2006b OCLC Number: (OCoLC)70202401 Subject: Biological weapons -- Research -- United States. Excerpt: . . . 11 other than in controls, namely, the development of immune response to vp24. Al-though these processes did not eventually lead to the survival of animals, they pro-longed the mean life span and resulted in the production of anti-Ebola antibodies, though the level thereof was low. These data demonstrate that recombinant vac-cines against Ebola fever are a promising trend of research Article Six Mol Gen Mikrobiol Virusol. 1997 (3): 24-7. Recombinant vaccinia virus expressing Japanese encephalitis virus protein E Cheshenko NV, Petrov VS, Protopopova EV, Netesova NA, Konovalova SN, Belavin PA, Loktev VB, Malygin EG. Recombinant vaccinia virus expressing protein E of Japanese encephalitis virus has been constructed. Polyclonal antibodies to JE virus reacted with recombinant protein E in immunoblotting. Immunochemical analysis of the recombinant protein E with monoclonal antibodies showed that both group specific and receptor domains of the protein were intact. Article Sevent J Virol. 2001 Feb; 75 (3): 1205 - 10. Expression of mouse interleukin-4 by a recombinant ectromelia...

Reviews

Definitely among the best book I have got possibly study. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Olga Ledner MD**

Complete guide for publication enthusiasts. I have read and i am sure that i will going to study again once again in the future. Your way of life period will be transform once you total looking over this publication.
